sanitize

- wipe down counters
- Provide more access to sanitation wipes for clean up after
- Clean bathrooms, increase heat in showers (they are cold).
- Wash bed sheets regularly

clothing

- Store each patients clothes separate from other patients
- Wash clothes one patient per washer/dryer
- Have patients leave their clothes in a bin outside their room for pickup
- Drop off clean clothes in a separate bin outside the room

food

- have more affordable options
- food is dropped off at door
- 2 food runners per floor
- More access to drinking water in general

student health

- Provide tests every other day to patients in quarantine
- Use video calls with professionals to check on patients' symptoms
- Use video calls to make sure patients are ok mentally while in isolation
- Provide access to exercise for asymptomatic patients in order to prevent buildup of pneumonia in the lungs.

Transportation

- Pay students to drive other students to Covid housing.
- Create a route that passes by all housing to pick up as many patients as possible
- Create and post a schedule of drivers and their arrival and departure times.
- Provide cleaning equipment for student cars as well.

sanitize

- each person has their own bathroom
- each person has their own shower
- Steam carpets after students leave
- fog housing with disinfectant once per day

clothing

- provide extra masks for infected students
- provide masks and saftey suits for healthy staff
- Provide the option of a room with included washer or dryer at request (more expensive option)
- Make sure there are enough washers and dryers per student

food

- have better food options
- Make sure the food is nutritious and healthy
- Test workers who are preparing the food so it is not contaminated
- Gain food for lower prices from sponsors

student health

- provide pamphlets to educate how to improve immune system
- monitor students symptoms
- dedicated medical staff in the covid housing
- free medicine ready in covid housing

Transportation

- Allow access to on the dot communication with your driver as to prevent a miscommunication over rendezvous point.
- dedicated staff for planning the move of students between dorms
- Create more phone lines for the transportation hotline to prevent mix ups of students from the operator.
- If numbers grow to large, use shuttles to transport more students at once
